

IMPORTANT INSTRUCTIONS

Before entering the MR environment or MR system room, you must remove ALL metallic objects including, but not limited to, hearing aids, dentures, partial plates, keys, cell phone, jewelry, hair pins, hair extensions, body piercings, safety pins, pocket knives, wallets, all cards with a magnetic strip, coins, pens, tools, clothing with metallic fasteners, and clothing with metallic threads. Please consult the MRI technologist if you have any questions or concerns **BEFORE** you enter the MR scan room.

The MR system has a very strong magnetic field that may be hazardous to individuals entering the MR environment or MR system room if they have certain metallic, electronic, magnetic or mechanical implants, objects or devices.

Therefore, ALL individuals are required to read and fill out this form **BEFORE** entering the MR scan room. Please be advised that the MR system magnet is **ALWAYS** on. MRI radiofrequency has the potential to cause tissue heating and a small number of patients have experienced skin irritation at the site of piercings, cosmetic implants tattoos and permanent make-up. Precautions will be taken to avoid this.

You will be advised to wear earplugs or other hearing protection during the MR procedure to prevent possible problems or hazards related to acoustic noise.

I attest that the above information is correct to the best of my knowledge. I read and understand the contents of this form and had the opportunity to ask questions regarding the MR procedure that I am about to undergo.
